THE ECOMEDIA COMPASS

Founded in 2011, The EcoMedia Compass is a non-profit organization based in Desert Shores CA at the Salton Sea. We are dedicated to bring environmental awareness and solutions through science, arts and community. The "Save Our Sea!" Campaign for California's Salton Sea continues to be a major force for environmental and community restoration. We work with other community groups, volunteers and agencies to restore the Salton Sea, implementing the support of the entire region, providing jobs, a healthy environment and resource sustainability for our future generations.

NEPO+

NEPO+ aims to be a safe, supportive, and empowering organization that works with local artists and small businesses to cultivate a more mutually beneficial community.

"Through the development of pop-up events and educational workshops the goal of the participating artist is to use art and technology as a catalyst to engage with the community and bring awareness towards an opportunity to empower change".

WHAT ARE WE DOING?!

Awareness, is a key element to transforming a community and its environment. The EcoMedia Compass will be collaborating with NEPO+ for Earth Day and using a method called ArtCupuncture; where a Pop-Up Gallery is used to activate the site, attract the public and educate the ongoing issues at the Salton Sea. The more people that can recognize the issue, the more support the community can gain to implement change.
